

SMART BIN, SMART CUSTOMER

Eliminate The Mess - Collect all of the random e-waste in your office using our beautiful Smart Bin. Designed and built in NYC, for your business and institution.

Eliminate The Security Risk - Keep used, damaged, retired electronics in our GPS tracked, electronically locked Smart Bin.

Eliminate The Work - One-touch "Pick Me Up, I'm Full" function lets our logistics team know you're ready for a pickup.

One Touch Pickup:

With one touch of one button, our logistics team will build your site into our route-based trucking system. This minimizes fuel and other carbon footprint elements, but most importantly, it minimizes your headaches. Push the button, we'll be there.

Save Money, Save Headaches

Affordable monthly fee with limited free pick-up service + Easy communication with 4THBIN.

Smart Lock:

No more hunting for keys, fiddling with padlocks or trying to squeeze materials through tiny slots. Our Smart Bin unlocks with a convenient card or key, and yes, we'll keep a spare handy for you. Smart locks, just one more feature of a Smart Bin.

Small Compartment

For loose items and flexible use.

Large Compartment

For large items.

GPS Tracked:

Did maintenance of office management relocate your bin without telling you? Don't worry, with our GPS tracker will find it. Want to monitor your new bin on its way to you, or the full one on its journey to our Long Island City sorting center? Tune in live and track your Smart Bin today.
